**COMMENTS:**

Session 2 of the November 28, 2018 hearing, as it is currently proposed, would not add to the Board's understanding of *the Department of Energy's view* of DOE Order 140.1.

I therefore disapprove.

**While the proposed witness list is diverse, no witness lines of inquiry have been explored. I do not believe adequate time is available before the scheduled hearing to accomplish this. I support expanding the time allowance for longer public statements and communication to the Board. Board Members retain the right to ask questions of anyone who makes a statement.**

**I can support a revised agenda that expands the duration and number of participants in session 2 or substitutes session 2 with an expanded public comment session to enable the participation of a larger number of outside stakeholder entities.**
