I support this hearing in New Mexico since it will provide us (in Session 2 of this hearing) with an opportunity to gather information from members of the public who live near defense nuclear facilities regarding DOE Order 140.1. I also support future public hearings near other defense nuclear facilities in other states.

I am concerned that no useful information will be gathered during Session 1 of this hearing to advance the Board's understanding of impacts of DOE implementation of Order 140.1 on the Board's ability to achieve its mission. As of today, it is unclear to me whether DOE federal field offices will have meaningful experience implementing Order 140.1 that could be shared with the Board by February 21st.
