It is doubtful that the proposed Hearing at SRS would generate fresh information regarding DOE Order 140.1. Given that, the cost of a Hearing would be a waste of taxpayers' resources.

I therefore disapprove.

**COMMENTS:**

I appreciate the RFBA and Board Member Santos for taking aboard my comments. After understanding the impacts to the staff and considering my own trepidation with regards to the opportunity costs, I have determined I can't support the action as written.

I would support an outline of a Board Trip to Savannah River with a public component in which we could present our on-going concerns with 140.1 and receive public comment. (And DOE would be welcome to provide comment as well.) I simply do not see that we will gain any more insight by hearing the Department or Field Elements provide testimony.
