As previously recorded I do not support the actual budget request. Further, I am not participating in this action because I do not believe the FY2020 metrics demonstrate or drive the agency to improve its operation nor garner confidence in the execution of its assigned mission. I therefore, leave this decision to my fellow Board Members.

COMMENTS:

I am approving this document as it comports with the President's budget. However, I would note that the staffing levels remain artificially low and do not reflect any internal agreement or planning as we have not yet approved a staffing plan. Going forward, the Board should work to have a staffing plan based on the needs analysis developed by the staff (and voted on by the Board) that includes appropriate staffing levels to account for the mission of the agency (as reflective of the activities of the Department), estimated attrition, training and development needs, and succession planning.

The goals in this document, as footnoted, should be updated as the Board works through a Strategic Planning process over the next six months.
