MEMORANDUM FOR Distribution

FROM: Steven V. Cary 

SUBJECT: Management Structure for actions under Implementation Plan for Defense Nuclear Facilities Safety Board (Board Recommendation 2000-2, *Configuration Management, Vital Safety Systems*).

As the Responsible Manager for the Implementation Plan for Board Recommendation 2000-2, I am responsible for organizing and coordinating the Department's actions in response to the Recommendation. The Implementation Plan outlines an Executive Team, of senior representatives from the field and headquarters program offices of Environmental Management, Defense Programs, and Science. This memorandum establishes the Executive Team and provides a list of contacts for issues dealing with the Implementation Plan. The Executive Team will meet either in person or via teleconference to review progress on the plan, decide issues that may arise, delegate and assign actions, and consider alterations in the plan if necessary.

Members of the Executive Team are Ralph Erickson, Mike Oldham, and Milt Johnson, the Chief Operating Officers of Defense Programs, Environmental Management, and Science respectively, and Bev Cook and Carol Sohn of Idaho and Oakland respectively. I will chair the Executive Team.

Jeff Kimball of Defense Programs, Bill Boyce of Environmental Management, and Earl Hughes of my office will handle day-to-day administration of the plan. Attached is a list of headquarters and field contacts for the implementation plan.
