This amendment requires the NFDI Group Lead to provide *options* by December 15, 2014, for evaluating the effectiveness of DOE and DNFSB actions to implement Safety-In-Design. The options will include (1) having the study be conducted by the staff, and (2) having the study be conducted by a contractor under the supervision of the NFDI group. I think WTP, UPF, CMRR, and many other projects demonstrate that the early integration of safety in design is effective. I will support any options based on the resources required to perform the task that might detract for the Board accomplishing its mission.

  
Peter S. Winokur, Ph.D.
