

2016-012B

**Amendment by Vice Chairman, Jessie H. Roberson to Yellow Folder: Doc#2016-012
Emergency Preparedness and Response at SRS**

Dear Secretary Moniz:

The enclosed information is provided to help the Department of Energy (DOE) strengthen the Savannah River Site emergency management capability. As part of the overall improvement efforts at the Savannah River Site, DOE should reinvigorate actions including implementation of a robust, comprehensive drill program to ensure site personnel are adequately trained and prepared for an actual emergency.

DOE Order 151.1C, *Comprehensive Emergency Management System*, requires that a “comprehensive, coordinated, and documented program of training and drills must be an integral part of the emergency management program.” Based on the observations at the Savannah River Site, DOE should consider whether additional requirements or oversight are needed in this area consistent with Recommendation 2014-1, *Emergency Preparedness and Response*.

Replace with language only below:

Dear Secretary Moniz:

The enclosed information is provided to aid the Department of Energy/NNSA in its implementation actions in response to Recommendation 2014-1, Emergency Preparedness and Response. While the information is specific to emergency preparedness and response at the Savannah River Site, it will be useful in the identification of needed actions at other sites.

Justification: I think the communication should be simple and clear. The Department has challenged its Programs and field elements to identify those issues that need to be addressed in this area and this is an additional source of information to aid in that effort.
