Defense Nuclear Facilities Safety Board (DNFSB) Public Hearing Benchmarking Best Practices in Management of Aging Safety Infrastructure

Hearing Panel Members

Government Accountability Office (GAO)

- **Mr. David Marroni**, is a Director in the Physical Infrastructure mission area. Mr. Marroni oversees work on real property management across the federal government. He has also led projects examining the nation's energy infrastructure, including federal oversight of commercial nuclear power.
- **Ms. Allison Bawden**, is a Director in the Natural Resources and Environment mission area. Ms. Bawden oversees work related to the U.S. nuclear weapons stockpile and has deep expertise in the operations and infrastructure associated with the National Nuclear Security Administration.
- **Mr. Nathan Anderson**, is a Director in the Natural Resources and Environment mission area. Mr. Anderson oversees work related to the cleanup of radioactive waste from the production of nuclear weapons. Mr. Anderson has broad expertise in the nuclear operations and infrastructure associated with the DOE's Office of Environmental Management.

American Nuclear Society (ANS)

• **Mr. Todd Anselmi** is the Vice Chair of the ANS Standards Board and the Chair of the ANS working group that published a standard in 2021 entitled, *Process for Infrastructure Aging Management and Life Extension of Nonreactor Nuclear Facilities*. In addition to his leadership roles within the ANS, Mr. Anselmi is the Recapitalization Program Manager for the Advanced Test Reactor at Idaho National Laboratory.

Nuclear Regulatory Commission (NRC)

• **Mr. Brian Smith** is the Director of the Division of New and Renewed Licensing at the NRC. Mr. Smith's current role is focused on licensing new and existing nuclear reactors, and he was previously a Branch Chief in the Division of Fuel Cycle Safety, Safeguards, and Environmental Review.

US Army Corps of Engineers

• **Mr. Peter Dodgion** is the Branch Chief for Asset Management in the Civil Works Division of the US Army Corps of Engineers. The Army Corps Division of Civil Works is involved in developing and managing the nation's water resources. Mr. Dodgion's organization plays a crucial role in maintaining and optimizing water resources infrastructure for the benefit of the public and the environment.

National Aeronautics and Space Administration (NASA)

- **Dr. Joel Carney** is the Assistant Administrator of Strategic Infrastructure at NASA. Dr. Carney's office focuses on NASA's infrastructure challenges, working with Mission Directorates and NASA Centers to ensure mission-critical assets are safe, ready, and reliable.
- **Dr. Erik Weiser** is the Director of the Facilities and Real Estate Division within the Office of Strategic Infrastructure at NASA. Dr. Weiser's team provides functional leadership for all NASA facility engineering programs, including master-planning, facility planning, design, construction, operations, maintenance, and real estate management.
