

## Exhibit 1–Staff Assessment of Major Changes from DOE Manual 140.1-1B to Order 140.1

- A new definition of “Public Health and Safety” to include only “...individuals beyond the site boundaries...”
- A new restriction on access to information for Hazard Category 3 and radiological defense nuclear facilities
- New restrictions on access to deliberative process draft documents that have not been approved for release and to deliberative meetings or discussions.
- New requirements for contractors to refer all requests for information or access related to defense nuclear facilities to a Departmental Site Liaison for response and to only respond when formally tasked by the Departmental Site Liaison.
